## **Blue Mountain Info:**

The **EZ-Slope Tickets** allow the purchaser to go directly to the slopes without having to redeem a voucher for another type of lift ticket at the Blue Mountain Ticket office.

Blue Mountain is asking us to share the following information with guests regarding the Blue Mountain EZ-Slope Ticket:

Blue Mountain has changed the ticket scanning system. **There is a RFID chip** within the tickets. **The signal can be blocked by cell phones and by other Blue Mountain tickets.** For this reason, they ask customers to keep their tickets in a different pocket than their cell phones. In addition, if a customer has more than one ticket, the reader in the gate will read the signal from the first card it finds (even if that card is expired). For this reason, customers can only carry their current ticket or pass. In addition, they cannot carry the tickets belonging to their friends and family members.

**EZ-Slope** tickets are from open to close.

Blue Mountain has a newly expanded patio deck, ski check, expanded ski school and seasonal locker area.
